Report:

Waveney welcomed Oulton Mariners to Division 2 and soon found the back of the net with an own goal after 2 minutes of solid pressure. The next goal came on 22 minutes with Danny out pacing the defenders to calmly slot home for 2-0. The home side should have had the game wrapped up by now after complete attacking domination, but seemed to lack the vital finish with the Mariners keeper standing firm and making vital saves. Jordan soon added a 3rd after reacting quickest to a parry, 3 minutes later Jordan got his second after meeting Dominic's long goal kick, jinked past a defender and found the bottom corner.

5 minutes into the second period James added the 5th after running onto a ball at the edge of the box and smashing home. Jordan soon added to his tally with a good poaches goal, and then his 4th of the game after some good work with Corey and Alex linking well. The defenders decided to get in on the act with Jake venturing forward, and deftly chipping the rushing keeper to make it 8-0. Mariners to their credit continued to play neat football and managed to pull one back with the home side looking at each other rather than closing the ball down. This only spurred Waveney on and Corey sped up the wing, looked across at his team lining up for the finish and played the ball to Alex at the near post, who then rounded the keeper to the left and jinked the ball in with the outside of his boot...super move and finish.

With 3 minutes to go Brandon got his head on a corner to make it 10-1. Mariners notched another in the dying seconds after a good break.

So, 10-2 the final score, which in itself is fantastic, but unfortunately the shaped seemed to disappear within the team as the game went on. Today we managed to get away with it, but boys you must maintain your positions in future games.

That's all the moaning I am going to do at the moment. 3 points on the board in the first game is important and you achieved that. We had some good passages of play and without a doubt are an attacking team, well done lads.
