Report:

Both these teams were crying out for a game of football as Waveney had not had a game for 5 weeks and Caister for 6 weeks. Unfortunately this showed as both teams put in a pretty ordinary performance but at least both teams got to be back in action and blow a few of the cobwebs away.

Waveney started pretty brightly in the opening 5 minutes, there was good movement with players looking for their team mates and looking to play the perfect pass. Bradley had to save well soon after which gave Caister some hope, Keelan looked good and played in Joe who fired in hard and low to take the lead. Within 2 minutes Caister were level when some horrendous marking and lack of desire to clear the ball from a free kick allowed the Caister forward to nip in round the back unopposed. A nice move followed started by Joe who played in Keelan who in turn played a neat ball to Ryan who with a deft flick released Jordan who made no mistake. Waveney did try to play football for the remainder of the half but Caister made it difficult in the last third putting plenty of bodies behind the ball.

Keelan was unlucky when his shot came back off the post and neat play and one two from Keelan to Jordan only saw Jordan's shot come back off the post. After the break the ball spent a lot of time in the air and both teams struggled to get any fluency going, there were moments of excellent play, all from Waveney but these were all to infrequent. Joe crossed superbly well only for Jordan to meet and header wide. Jordan then returned the compliment to Joe but Joe fired wide.

Ryan played the ball to Ben who lobbed the keeper from way outside the box to finally kill off the Caister interest. Further chances fell to Joe, Jordan and Liam SS who all missed their chance. Keelan late on jinxed his way through the static Caister defence but failed to connect well with his shot.

Guys,

Will put this down to you seriously needing a game but at least it's another 3 points on the board. Was not all bad as some really good movement at times but all too frequently we looked a shadow of what we know you are capable of. Gave me a chance to see who has the desire and who really wants it.

Must say hopefully there is more to come.
