Date:	Sunday 11 th April 2010	Kick Off:	12.15pm
WYFC U13B	2	V.	3 Bohemians U13A
Harry S Jordan			
Referee:	Kevin Gook		

Report:

4th placed Waveney welcomed 2nd placed Bohemians in the return leg, looking to avenge defeat from the earlier meeting 2 weeks ago. Both teams as predicted played open football and attacked at every opportunity. Bohemians nearly opened the scoring with a header coming back off the bar and cleared up field to safety. Harry S looked sharp and also hit the woodwork after beating the keeper, shooting across goal only for the ball also to bounce off the woodwork and then cleared off the line by the scrambling defence.

On 25 the away side did make one count with a long ball up field, Daniel landed awkwardly with his last touch of the game and the striker broke free to the moving ball, Dominic delayed his run and gave the upper hand to the striker to tuck away. The game then stayed tight until 13 minutes into the second period when Harry S also latched onto a long ball, out muscled the defender and stroked calmly home for the equaliser. But Bohemians showed their determination and immediately reacted from the kick off, pushed the ball out wide and drove at the wing back shooting across goal for a well deserved lead.

Jake fired in a free kick from distance which had goal written all over it, the defence beaten and the ball dropping under the bar but the keeper made a marvellous save pushing the ball over the top of his net. From the resulting corner Jordan floated in a long corner eluding all players and dropping in at the far post...game on.

Just as things looked like they would finish honours even Bohemians grabbed the winner with a minute to go...

A great game to watch played at pace and with two very enthusiastic sides competing for the points. Well done to everyone involved.

Hi-Tech Player of the Match:	Jake Cross
